Table of Contents

- Acknowledgements
- Introduction of myself
- Journey with clevered
- About the app
- How to use it
- Person contact

Acknowledgements

- A big thanks to my parents for enrolling me in AI internship with clevered. I would also thanks my mentor(Ms. Mani) for helping me in my queries during the internship.

About Me..

I am harsh.

I am 14 years old
and studying in 10th
grade.

I find AI interesting
because it has lot of
new things to learn,
etc..

About My Internship with Clevered..

- My internship with clevered is very nice and i am getting to learn about lot new things in this internship.

About App..

- My app name is ask me anything chatbot.
- In this i made the chatbot know things about football and let the user learn new things and ask questions about football.

How do I use the App?

When you click the green flag the chatbot asks your name and then after you answer it, the chatbot will ask you or tell you some interesting things about football that you might or might not know.
